**Last Week's Program:** - Sheriff Larry Ashley – Okaloosa County.

Sheriff Ashley's presentation helped us focus on the question, "What is government's responsibility?" Public Safety, obviously, must rank at the top of local government's core responsibility. We were urged to be advocates for Public Safety, call our elected officials and insist they place proper priority on budget allocation in support of Public Safety, particularly during these hard economic times. Our sincere thank you to Sheriff Ashley for a very informative and enlightening presentation.
