

Changes planned for airport entrance ramp

Chipley – The State Road (SR) 85 northbound entrance to the Northwest Florida Regional Airport will be temporarily closed Monday, March 7. The closure is needed to rebuild the ramp connecting SR 85 northbound to the airport.

During the closure both north and southbound traffic will use the current SR 85 southbound entrance. This entrance is located approximately 100 feet north of the current entry point.

A \$25.1 million construction project is underway to improve the SR 85/123 interchange and the entrances to the Northwest Florida Regional Airport. Work began in the summer of 2009 and is slated for completion in mid-2012.

Construction activities are weather dependent and may be delayed or rescheduled in the event of inclement weather. For more information and the latest traffic advisories associated with the SR 85/123 construction project, visit www.SR85-123.com.
