

### *Nighttime paving work scheduled for US 98 in Okaloosa County*

**Chipley**—Paving work is scheduled to begin Sunday evening, June 12 along a nearly five mile section of US 98 from the Santa Rosa County line to Josie Road, west of the Hurlburt Field main gate. Crews will work each evening for the next several months to resurface the roadway.

The work will be performed at night, between 8 p.m. and 5 a.m., to minimize traffic impacts. However, drivers should anticipate the potential for lane closures and travel delays during the designated work times. Access to businesses, residences and other private property along US 98 will be maintained during the construction activities.

The resurfacing work is part of a \$4.7 million effort that includes drainage improvements, replacing guardrails and traffic signal timing loops, and installing new pavement markings and signs.

The planned construction activities are weather dependent and may be postponed or re-scheduled in the event of inclement weather.

More information on the US 98 resurfacing project is available online at [www.MyUS98.com](http://www.MyUS98.com).
