Detours Planned for S.R. 85 near Northwest Florida Regional Airport

Chipley – State Road (S.R.) 85 traffic near the Northwest Florida Regional Airport will encounter a detour the evenings of Tuesday, Nov. 1 and Thursday, Nov. 3 from 9 p.m. until 5 a.m. The detour will allow construction teams to position a large crane and other equipment that is needed to continue widening and elevating the S.R. 85 travel lanes in front of the airport.

The detour will require traffic exiting the airport for S.R. 85 southbound to turn right onto S.R. 85 northbound, and then travel approximately one-half mile in order to make a U-turn onto S.R. 85 southbound. Entering the airport from S.R. 85 southbound will require a U-turn at the S.R. 85/123 intersection.

The left lane of S.R. 85 northbound will also be closed both evenings from 8:30 p.m. until 7 a.m.

The airport entrance from S.R. 85 northbound will not be affected by the work.

Construction activities are weather dependent and may be delayed or re-scheduled in the event of inclement weather. For more information and the latest traffic advisories for the S.R. 85/123 construction project, visit www.SR85-123.com.
