FCIC/NCIC response indicated the defendant's Probation Officer was Rae Sweat.

On September 8th, 2014, your affiant made contact with Probation Officer Sweat by telephone. Your affiant informed Sweat of the information I had received in reference to the defendant possibly cooking methamphetamine. Probation Officer Sweat stated she will conduct a probation search of the defendant's residence on September 11th, 2014, and she would advise your affiant if she located any illegal contraband.

On September 10th, 2014, your affiant conducted a Meth Check report on the defendant through Law Enforcement resources. The report indicated the defendant purchased and/or attempted to purchase medication containing pseudoephedrine thirty-seven times between January 15th, 2014 and September 7th, 2014.

On September 11th, 2014, your affiant made contact with Probation Officer Sweat at her office. Officer Sweat stated she conducted a urinalysis on the defendant on September 9th, 2014, at which time, the defendant tested positive for methamphetamine. Officer Sweat requested that your affiant go to the defendant's residence and standby while she and Probation Officer Chris Wilkinson conducted a search of the defendant's residence.

Investigator Milonas and your affiant went to the defendant's residence and we stoodby on the outside of the residence while Officer Sweat and Officer Wilkinson conducted their search. During the search, Officer Wilkinson brought several digital scales and a compact mirror out of the residence. Officer Wilkinson stated he located the items in the defendant's bedroom and he requested the Sheriff's Office conduct a field test on the surfaces of the items in order to determine if they tested positive for controlled substances. The mirror had white residue on the surface, which field tested presumptive positive for methamphetamine. Officer Wilkinson also indicated that he located a clear bottle with tubing attached to the lid and pseudoephedrine inside of the defendant's bedroom.

The trash can for the defendants residence was sitting on the edge of the roadway, directly on front of the residence. Your affiant conducted a search of the trash can and I located numerous items that were indicative of the production of methamphetamine. Those items included the following: lighter fluid, empty pseudoephedrine packages, empty lithium battery packages, peeled lithium battery casings, coffee filters with brown staining, and clear tubing that was attached to a white bottle cap by silver tape.

Based on your affiant locating the above mentioned items, all of the occupants of the residence were detained. Post Miranda, the defendant completed a consent to search form. The defendant indicated that a bedroom on the north end of the residence was being leased by the co-defendant (1), Crystal Haynes. Post Miranda, the co-defendant (1) also completed a consent to search form.

During the search of the residence, the following items were located inside, which were indicative of methamphetamine production.

In the defendant's bedroom, your affiant located additional pseudoephedrine and a hot plate.

In the laundry room that was attached to the defendant's bedroom, Investigator Milonas located a bottle of muriatic acid and a bottle of hydrogen peroxide.

On the kitchen counter, your affiant located one bottle of lighter fluid, coffee filters, a roll of silver tape, a yellow funnel, an empty box of "Dollar General" daytime cold, a clear bottle with a green cap ring, and a green bottle cap that had clear tubing attached to it with silver tape.

In the living room, Investigator Self located a bottle of Drano.

In the co-defendants (1) bedroom, your affiant located coffee filters, a cold pack that was cut open, and a clear "Powerade" bottle that contained forty-five grams of bi-layered liquid that subsequently field test presumptive positive for methamphetamine. The area these items were located were accessible by everyone present in the residence.

During an interview with a second co-defendant (2), Amanda Wheeler, she stated the bottle was placed on the shelf in the bedroom by the defendant. The co-defendant (2) indicated that she asked the defendant for methamphetamine on the night of September 10th, 2014, however, the defendant did not have any. The co-defendant (2) stated the defendant brought the bottle into the bedroom and placed it on the shelf in the closet.
